

EXECUTIVEview360⁺

ExecutiveView360° assesses critical competencies required for effective senior leadership

The 22 competencies span four areas based on job profiling of executive positions. These areas are

- Performance Leadership
- Change Leadership
- Interpersonal Leadership
- Personal Leadership

It provides a comprehensive summary feedback report, comparing senior executive self-perceptions to those of board Members, managers, direct reports, peers, and team members.

ExecutiveView360° is a comprehensive tool for rigorous, in-depth report of strengths and developmental needs for senior executives and leaders in all industries. It is aimed at senior executives who would prefer more detailed analysis and a more comprehensive development tool. With explicit information and appropriate feedback, senior level executives can become extraordinary leaders within their organisation.

ExecutiveView360° is ideal for use in executive coaching, senior management and development programs, succession and talent management programs, and to support the developmental section of executive performance evaluation systems.

ExecutiveView 360° is part of ViewSuite360° - a suite of complementary off-the-shelf 360° Feedback tools.
