

# MANAGERview360<sup>+</sup>

## ManagerView360<sup>+</sup> assesses 20 critical, managerial competencies required for effective leadership and managerial effectiveness

The tool is based on extensive job analyses of managerial positions from diverse industries

- Leadership/Performance Management
- Interpersonal
- Communication
- Problem Solving

ManagerView360<sup>+</sup> is more comprehensive than LeaderView360<sup>+</sup>, and is a tool for rigorous, in-depth report of strengths and developmental needs. It is aimed at supervisory, middle to senior managers looking for more detailed analysis and a more comprehensive development tool.

It provides a comprehensive summary feedback report with specific developmental suggestions, activities, website resources, and suggested workshops that can be easily customised to meet the needs of any organisation.

ManagerView360<sup>+</sup> is ideal for use in management coaching, supervisory training, and management development programs. It also supports the developmental section of corporate performance evaluation systems.

*ManagerView 360<sup>+</sup> is part of ViewSuite360<sup>+</sup>; a suite of complementary off-the-shelf 360<sup>+</sup> feedback tools.*
